AN OPEN LETTER FROM OUR CEO

Dear Hoang Ha's valued customers and partners,
We are honored and look forward to your cooperation in our upcoming projects.

As one of the pioneer jumbo bag manufacturers and traders in Northern Vietnam, Hoang Ha has a solid team of workers and employees, who are endeavoring to improve productivity and quality to bring the best products to our domestic and foreign customers at competitive prices.

We are confident that our experienced and highly trained staff will satisfy our customers' diversified needs.

With the motto "Quality creates credibility", we commit to providing customers with durable products of high technology content, and at the same time affirming the company's credibility in regional and international market.

We firmly believe that our precise business strategy, which is based on the strength of a cohesive and devoted team, will boost Hoang Ha into a leading manufacturer in the field of jumbo bags in Vietnam.

CEO

MR. HOANG MANH TOAN

INTRODUCTION

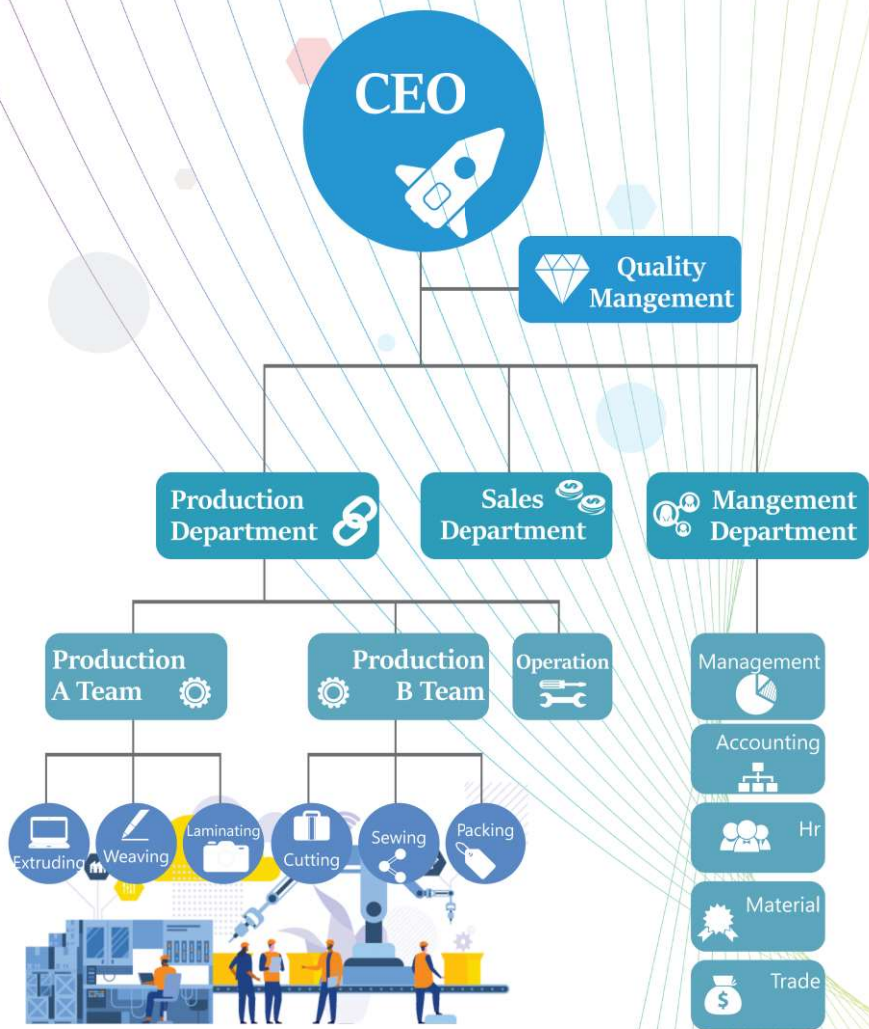

Hoang Ha FIBC was founded in 2004, headquartered in Lot 07, Thuy Van Industrial Park, Viet Tri, Phu Tho, with a 10,000 square meter factory. In 2022, Hoang Ha expanded its production scale with the second factory in Lot 10, also in Thuy Van Industrial Park, Viet Tri, Phu Tho. Our main exported products are jumbo bags, used in agriculture, industry, mining, etc. Export volume is 1.5 million units per year. Hoang Ha's main export markets are Japan, Korea and Southeast Asia.

VISION - MISSIONS

VISION

Hoang Ha is constantly improving our products' quality. We will continue to expand our scope to products of high technology content to conquer such demanding markets as Europe and USA.

MISSIONS

Hoang Ha's mission is to provide jumbo bags of stable quality at competitive price to bring the highest value to our customers and make a contribution to elevating the position of Vietnamese brands in regional and international markets.

PRODUCTION PROCESSES

1. EXTRUDING

100% of virgin polypropylene resin, color materbatch and UV stabilization additives are used under lines of modern extruding machines imported from South Korea, which employs a closed cycle to make durable and up-to-standard thread.

2. WEAVING

With a chain of cutting-edge weaving machines imported brand new from renowned South Korean and Indian suppliers, we are capable of weaving fabric sheets up to 2160mm widthwise.

3. BELT WEAVING

Utilizing state-of-the-art belt weaving machines, we can provide customers with PP and Mono belts ranging from 20mm-100mm widthwise.

4. LAMINATING

Embracing up-to-date laminating technology, which allows double-sided lamination on fabric with width size up to 2100mm, we can satisfy all special laminating requirements for big sized bags.

HOANG HA
FIBC

5. CUTTING

Lines of thermal automatic cutting machines enable spectacular and accurate cutting in high volume.

6. FLEXO PRINTING

2 and 3 color Flexo printing machines are used, offering consistent quality with sharp details.

7. SEWING FINAL PRODUCTS

Closed process with well-trained sewing workers creates durable, well-formed and diversified final products that will satisfy customers' requirements.

8. QUALITY INSPECTION

All stages of the production process undergo quality control procedure. Products are load tested and UV tested before being delivered to customers under modern machinery.

9. PACKING AND BAILING

QC passed products will be packaged as per customers' requests. Our high power bailing machines can maximize the amount of products that can be fitted into a container, therefore reduce logistic expenses.
